## Information about the Environment and for travellers in Crete:

# Scytodes fusca

(WALCKENAER, 1837)

Order: (Synanthropic) Spiders

Family: spitting spider

Genus: Scytodes

### **Characteristics:**

The female reach a size of 4.4 to 5.0 mm.

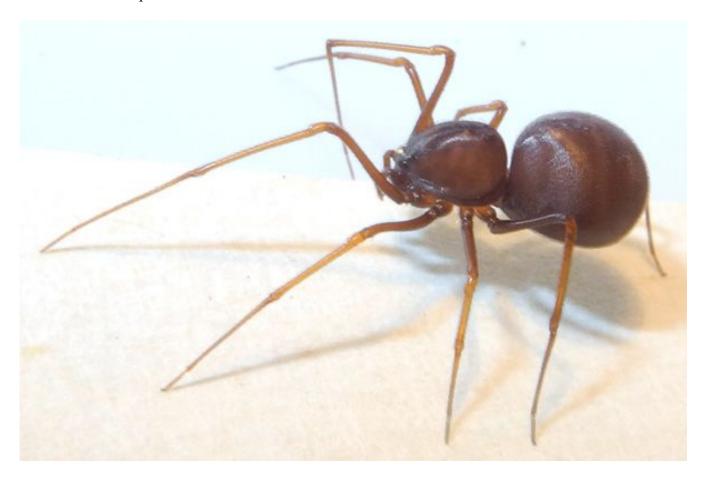

The male only from 2.21 to 2.43 mm. (NENTWIG W. et al. 2012)

#### **Distribution:**

Originally these spiders come from Central and South America and were imported to Europe, Africa and Asia (WORLD SPIDER CATALOG ASSOCIATION 2017).

In 2013, the spider was first detected in Germany.

We found a male spider in Gouves!

Joung animal
