Εξηγήσεις: Στον κατάλογο με την περιοχή ημερομηνίας και ανακαλύψεων (*leg.* NAOM/NLUK: *Eikamp/Kluge*) τα χαρακτηρισμένα είδη κατατίθενται στο φύση-ιστορικό μουσείο του πανεπιστημίου Ηρακλείου/ Κρήτη ή/και στη συλλογή αραχνών του ερευνητικού ιδρύματος και του μουσείου Senckenberg, κεντρικός αγωγός φύσης της Φρανκφούρτης AM, και (για την επιστημονική εργασία) κρατιέται εκεί. Μέχρι σήμερα **1.109 αράχνες**, από το **78** είδη καθορίζονται αυτή τη στιγμή. Ο **αριθμός καρτέλων αρχείων** χαρακτηρίζει τον αριθμό που στέκεται πίσω από εκείνο τον λατινικό προσδιορισμό του είδους τετράγωνα ακκύλες [**SMF xxxxx**], κάτω από τον οποίο (*leg.* *Eikamp&Kluge*) οι ενημερωμένες απαριθμημένες αράχνες (καθώς επίσης και όλα τα υλικά και σημαντικά ταξονομικά στοιχεία τύπων) καταλαμβάνονται και κατατίθενται στο Senckenberg μουσείο Φρανκφούρτη. Εκείνοι οι εντός παρενθέσεως μόνιμοι αριθμοί (**SMFxxxxx**) είναι εκείνοι οι αριθμοί καταλόγων, κάτω από τους οποίους τα περαιτέρω καθορισμένα είδη από την Κρήτη είναι παρόντα στη συλλογή αραχνών του μουσείου Senckenberg. Μπορούν να δουν επίσης **on line** κάτω από <http://sesam.senckenberg.de>

Erläuterungen: Die in der Liste mit Datum und Fundort (*leg.* NAOM/NLUK: *Eikamp/Kluge*) gekennzeichneten Arten sind im Naturhistorischen Museum der Universität Heraklion/Kreta und/oder in der Arachnologischen Sammlung des Forschungsinstitutes und Naturmuseum Senckenberg, Frankfurt am Main, hinterlegt und werden dort (für wissenschaftliche Bearbeitungen) aufbewahrt; bis dato **1.109 Spinnentiere**, davon **78 Arten** derzeit determiniert.

Die hinter der lat. Bez. der Art in eckiger Klammer stehende Nr. [SMF xxxxx] bezeichnet die **Karteikartennummer**, unter der die (*leg.* *Eikamp & Kluge*) aktuell katalogisierten Spinnen (sowie alles Typenmaterial und wichtige taxonomische Daten) beim Senckenberg Museum Frankfurt erfasst und hinterlegt sind; die in runder Klammer stehende Nr. (SMF xxxxx) sind jene Katalognummern, unter denen weitere determinierte Arten aus Kreta in der Arachnologischen Sammlung des Senckenberg Museums vorhanden sind. Sie können auch **online** eingesehen werden unter <http://sesam.senckenberg.de>.

Annotation: The identified species, listed with date and habitat (*leg.* NAOM/NLUK: *Eikamp/Kluge*) are deposited and stored for scientific transcription at the Museum of Natural History of the University of Heraklion/Crete and/or within the arachnology collection of the Research Institute and Museum of Nature Senckenberg, Frankfurt. Until today 1.109 arachnids (spiders), 78 species of them are currently determined.

The number behind the Latin description of the species within the square brackets [SMF xxxxx] identifies the number of the index card (*leg.* *Eikamp & Kluge*) where the currently catalogued spiders (plus all species material and important taxonomical data) are ascertained and deposited (Museum of Nature Senckenberg, Frankfurt a.M./Germany). The number within the round brackets (SMF xxxxx) is the Catalogue number under which further determined species from Crete exist (within the Arachnology collection of Senckenberg Museum). They can be viewed online also at <http://sesam.senckenberg.de>.
